

Sales Pitch Script: Maybank Mortgage Loan Recommendation for Norman

Good morning Norman, thank you for sharing your interest in purchasing your first home. I understand that buying a first property is a major financial decision, so it is important to choose a mortgage loan that is affordable, clear, and suitable for your long-term financial plan.

Based on your profile as a 30-year-old accountant and first-time home buyer, I would recommend a Maybank mortgage loan that offers structured monthly repayments, flexible loan tenure, and professional support throughout the application process. This can help you manage your cash flow while working toward home ownership.

The main benefit of this loan is that it allows you to spread the cost of your property over a longer period, making the purchase more manageable. Since you are careful with financial planning, we can review your income, commitments, preferred repayment period, and property price before deciding the best financing structure.

Maybank can also guide you through the required documents, eligibility check, and loan application process, so you will have a clearer understanding before making your final decision. This is especially useful for first-time home buyers who may not be familiar with the mortgage process.

Overall, this mortgage loan is suitable for you because it supports your goal of owning your first home while helping you maintain financial stability. The next step would be to review your eligibility and calculate an estimated monthly repayment so that you can make a confident and informed decision.
